**About served®** - served® is based in and ships from North Carolina, where founder Bryn Wilson lives with her husband, three children, and their golden retriever.

served was born from Bryn's frustration with how difficult it was to transport and serve the recipes she was sharing. After wrestling rectangular plastic wrap over a round serving bowl and anxiously hoping it wouldn't get spilled in the car - it inevitably ended in disappointment with wilted salad or congealed macaroni and cheese to share with friends and family. So, she came up with a better solution... insulated transportable serveware!

Since served is all about sharing and connection, we have pledged 5% of profits to community-based nonprofits around the world.
